#### A.2. MCCP/OCCP DETAILS

A.2.a. ISSUE OR DEFECT WHICH THIS MCCP / OCCP SEEKS TO ADDRESS Required under Market Code Parts 8.7.1 (ii) (b) and 8.8.1 (ii) (b)

Although the SW Connection Reference (D2009) provides a way for LPs to tie new SPIDs back to the original applications (as do the SAA references and UARNs), it would also be helpful if LPs had the ability to include their own reference, to better manage the end-to-end process. This is particularly true in the case of developments involving multiple new connections, where it is useful to create a reference that identifies both the overall development and the individual connection.

A.2.b. DESCRIPTION OF THE NATURE AND PURPOSE OF THE MCCP / OCCP AND HOW IT MEETS THE MARKET CODE / OPERATIONAL CODE OBJECTIVES AND PRINCIPLES FOR THE MARKET DOCUMENTS Required under Market Code Parts 8.7.1 (ii) (c) and 8.8.1 (ii) (c)

#### **General Description**

A new data item LP Connection Reference should be created. As with the SW Connection Reference, it would be included in the T01.0, T02.0 and T02.1 transactions (though with an optional flag, rather than a required one), and would not be added to the market data set. Its other parameters would all be identical to the SW Connection Reference.
