

CMA Bulletin

To: CMA MEMBERS
No: BU116
Title: Scottish Landlord Portal Deployment
Purpose: For Information
Expiry date: 31/10/2016
From: Andrew Millar
Date: 28/10/2016

This Bulletin is to inform Market Participants of the deployment of the Scottish Landlord Portal (SLP) (v1.0).

The SLP will be released to the SLP Production Environment on **Monday 31 October 2016** at 9 am. Following deployment, the CMA will register Delegated Authorities for all Market Participants, as identified in the list that was issued for the test environment DA registrations (subject to one or two amendments, as suggested by participants); e-mails will be issued as these registrations are made. Such DAs may subsequently create, modify and delete the Users and DAs that they wish to have use of, or access to, the SLP, as per the identified operation of the SLP.

It should also be noted that, as of this time, Landlords may also begin accessing the SLP and registering in accordance with the SLP arrangements for Landlord Users and DAs. The routine download of data from the CMA Central Systems will also be initiated on Friday 28 October and the first such download will take place at 11pm and will then take place daily thereafter.

The URL for the SLP Production environment is <https://slp.cmascotland.co.uk>

A Communications and Awareness Strategy will be initiated, as soon as a suitable communication has been published by the Scottish Government. In addition, from the time of the SLP deployment to the final stages of the Communications and Awareness Strategy activities, the SLP test environment (URL <https://slptest2.cmascotland.co.uk>) will remain available to participants for training purposes.

If you have any questions, please do not hesitate to get in touch.

Regards,

Andrew
