

## CMA Bulletin

---

**To:** CMA MEMBERS  
**No:** BU081  
**Title:** Central System Cutover - Rollback  
**Purpose:** For Information  
**Expiry date:** 4 October 2011  
**Attachment:** N/A  
**From:** Gary Craig  
**Date:** 3 October 2011

---

This Bulletin is to inform Market Participants, that following the failure to cutover to the new Central Systems Production environment, we are rolling back to the current Central Systems Production environment.

The Central Systems will not be available until around 13:00 today in order to facilitate the rollback. The CMA will issue an email to notify Participants as soon as the Central Systems is available.

The September 2011 Central Systems Software Release will now be delayed and will not take place on 6 October as provisionally scheduled. The cutover to the new Central Systems environment is a requirement for deploying this Software Release.

The CMA will circulate a Bulletin when new dates for these deployments are confirmed.

Regards

Gary
