

COMMISSION CHANGE PROPOSAL			Form Version 1.2	
Change Proposal Reference	MCCP048-CC	Version Number	1.0	
PART A - SUBMISSION				
1. GENERAL DETAILS				
a.	Title	X,Y GIS Co-ordinates		
b.	CONTACT NAME	Mark Nolan		
c.	CONTACT E-MAIL	Mark.nolan@watercommission.co.uk	CONTACT TEL/MOB	
d.	ASSOCIATED DOCUMENTS			
2. MCCP/OCCP DETAILS				
a.	ISSUE or DEFECT WHICH THIS MCCP/OCCP SEEKS TO ADDRESS			
<p>A field is required in the “meter details” table to record GIS (X,Y) coordinates of meter location. This will be visible in the LVI under “meter details” for each meter in the market. This will vastly improve meter location information which is beneficial to the Market as a whole.</p> <p>Flows to update the field are not required in this release but will be required in a later Release. The field will be populated by a data upload to be co-ordinated by the CMA. Scottish Water will provide the data that they currently hold.</p> <p>SW have adopted the OSGB 36 standard for capturing the grid references. The standard generally adopted is often referred to as OSGB 36 from a survey by the Ordnance survey in 1936. It divided the UK into squares of 500km/100km. Most of the handheld devices used allow you to view various grid ref standards as well as Latitude/Longitude.</p>				
b.	DRAFT LEGAL TEXT – required under Market Code Parts 8.7.1 (ii) (d) and 8.8.1 (ii) (d)			
Proposed documentation changes have been circulated to the TP Panel				
3. ANY OTHER COMMENTS				
Please complete the changes by end June 2010
