

COMMISSION CHANGE PROPOSAL			Form Version 1.2	
Change Proposal Reference	MCCP070-CC	Version Number	1.0	
PART A - SUBMISSION				
1. GENERAL DETAILS				
a.	Title	Data Logger Functionality		
b.	CONTACT NAME	Richard Khaldi		
c.	CONTACT E-MAIL	Richard.Khaldi@watercommission.co.uk	CONTACT TEL/MOB	01786 430212
d.	ASSOCIATED DOCUMENTS	Detailed Requirements (Attached), Updated CSD0101, CSD0104 (to be provided to the TP at the December meeting),		
2. MCCP/OCCP DETAILS				
a.	ISSUE or DEFECT WHICH THIS MCCP/OCCP SEEKS TO ADDRESS			
<p>As part of the Final Determination changes the Commission requires the introduction of functionality in the Central Systems that identifies meters where data logging devices (“dataloggers”) are present. Scottish Water as the meter asset owner (although not always the data logger owner) will be the datalogger data item owner. This information should be available to both the LP that owns the SPID and LPs that are not the SPID owners.</p> <p>Scottish Water will have responsibility for providing and maintaining the data items and should be able to undertake this via transactions in the Central Systems. The timescales for providing this information will adhere to the current timescales associated with Meter creation and meter updates in the CSDs.</p>				
b.	DRAFT LEGAL TEXT – required under Market Code Parts 8.7.1 (ii) (d) and 8.8.1 (ii) (d)			
Proposed market documentation changes will be circulated to the December TP.				
3. ANY OTHER COMMENTS
