1 Introduction

The September 2020 Software Release Project implements 4 Approved Changes to the CMA CS, in accordance with CMA LWI 205.

The impacts on Trading Parties from these are summarised below and the complete details are included in the updated Functional Design Document for the Release. These Approved Changes deliver a combination of fixes and enhancements.

This results in a new version 6.1 of the CMA CS software being released to the Production environment with no regression of current functionality or system performance occurring.
