This Bulletin is to inform Market Participants of the September 2023 Central Systems Software Release (v7.3). The new Central Systems Software version will be released to the Central Systems Production Environment on Thursday 21st September 2023 after the Market closes promptly at 18:00. The Market will open as normal at 08:00 on Friday 22nd September 2023.

Accompanying this Bulletin is the v7.3 Software Release Note. This contains details of all the changes being delivered.

Points to note:

All participants are required to upload their Cyber Essentials information prior to October 1st 2023. As this is a Sunday, I would recommend all Cyber Essentials information is uploaded by midday on Friday 29th September.

All participants are also required to allocate at least one user the access to request/approve additional Self-Service settlement runs. Please note, even if a participant is not planning on running these additional runs, each LP must have someone who is able to approve or decline a settlement run request.

If you have any questions, please do not hesitate to get in touch.

Regards,

David
