1 Introduction

The September 2025 Software Release Project aims to implement 12 Approved Changes, to include:

- 9 changes to the CMA Central Systems
- One change to the CMA website
- One documentation change to consolidate the legal drafting for the Release
- One standalone file system change to support the market

These Approved Changes will be delivered in accordance with LWI 205 and will result in a new:
- Version 7.7 of the CMA CS
- Version of the CMA website

These will be released to the Production environment with no regression of current functionality and system performance occurring.
