Dear All,

CMA are exploring the option to deliver a refresher training course aimed at supporting Participants who would either benefit from a review of the initial Market Entry Training, or for any new staff who may not have benefitted from the initial Market Entry Training.

This session is planned for March 2026, and we will issue a doodle poll once we garner enough interest in the course. It will be a remote session and last for 2-3 hours.

At this stage, the course will only proceed if there is sufficient interest from industry participants.

If you or members of your organisation would like to attend, please submit an expression of interest by close of business on Friday 27<sup>th</sup> February 2026. Your response will help us determine whether to move forward with scheduling and finalising the training session.

We look forward to hearing from you.
