**A.2. MCCP / OCCP DETAILS**

A.2.a. ISSUE OR DEFECT WHICH THIS MCCP / OCCP SEEKS TO ADDRESS  
 Required under Market Code Parts 8.7.1 (ii) (b) and 8.8.1 (ii) (b)

The T009.5 transaction (Notify Cancellation of Future-dated Transaction) was introduced in the March 2025 software release.

It responds to the new T009.6 (Submit Cancellation of Future-dated Transaction) to notify relevant parties that the future-dated transaction they have previously been notified about will not, in fact, go ahead.

In the March 2025 release only Scottish Water can submit T009.6 transactions but both Scottish Water and affected LPs would receive T009.5 transactions. Exactly which parties receive a T009.5 transaction may change when other future-dated transactions are enabled in the Central Systems.

In testing for the March release, we became aware that returning the original Message ID of the transaction that is cancelled is not particularly helpful. It would be much more useful for the T009.5 to include the Message ID of the notification message so that the Trading Party can more easily look up which message has been cancelled.

A.2.b. DESCRIPTION OF THE NATURE AND PURPOSE OF THE MCCP / OCCP AND HOW IT MEETS THE MARKET CODE / OPERATIONAL CODE OBJECTIVES AND PRINCIPLES FOR THE MARKET DOCUMENTS  
 Required under Market Code Parts 8.7.1 (ii) (c) and 8.8.1 (ii) (c)

**General Description**

This change would amend the T009.5 transaction so that the recipient would get the Message ID of the original notification they had received to allow the recipient to identify the cancelled transaction more easily.

If changes are identified for CSD0301 Data Transaction Catalogue Annex, these will not be provided in this MCCP, but will be provided following the deployment of the associated system updates.
