CHANGE PROPOSAL**Form
version 3.0Change Proposal reference
(To be completed by the TP Sec.)**MCCP320**

Version No.

D.1**PART A — SUBMISSION****A.1. GENERAL DETAILS**

A.1.a. TITLE	Addition of the T004.2 Transaction to the MVI		
A.1.b. COMPANY	CMA		
Change Proposals must be authorised by the person designated by the signatory to the Market Code Framework / Accession Agreement			
A.1.c. AUTHORISED SIGNATURE		NAME	Damian Sharp
A.1.d. CONTACT NAME	Damian Sharp	CONTACT EMAIL; TEL/MOB.	damian.sharp@cmascotland.co.uk
A.1.e. ASSOCIATED MCCP / OCCP			
A.1.f. ASSOCIATED DOCS.	CSD0301 Data Transaction Catalogue		
A.1.g. PROPOSED URGENCY	NON-URGENT		
A.1.h. REASONS FOR URGENCY			
The CMA CEO will review this information and make a decision as to whether to take this MCCP / OCCP forward as urgent as defined under Market Code Part 8.9.1			

A.2. MCCP / OCCP DETAILS		
A.2.a. ISSUE OR DEFECT WHICH THIS MCCP / OCCP SEEKS TO ADDRESS Required under Market Code Parts 8.7.1 (ii) (b) and 8.8.1 (ii) (b)		
T004.2 (Submit Meter YVE Details) are among the most commonly submitted transactions in the Market. Because YVEs change regularly following meter reads, timely updates are essential - especially when reads are unavailable and settlement depends on estimates. Manual processing increases the likelihood of YVEs becoming out of date, creating misalignment between internal and market data and potentially driving inaccurate wholesale settlement outcomes. For non-HVI LPs updates must be completed individually. Bulk update functionality would materially reduce effort and turnaround time. A bulk update tool would allow LPs to: 1. Update YVEs faster and more consistently. 2. Reduce operational effort and reliance on manual processing. 3. Improve alignment between internal systems and market-held values, supporting more accurate settlement		
A.2.b. DESCRIPTION OF THE NATURE AND PURPOSE OF THE MCCP / OCCP AND HOW IT MEETS THE MARKET CODE / OPERATIONAL CODE OBJECTIVES AND PRINCIPLES FOR THE MARKET DOCUMENTS Required under Market Code Parts 8.7.1 (ii) (c) and 8.8.1 (ii) (c)		
General Description		
Expanding the MVI to include the T004.2 (Submit Meter YVE Details) transaction would allow more efficient updating of Meter Data leading to more accurate settlement and transaction validation. It is not easy to find the list of permitted MVI transactions in the Market Documents as it is currently only contained in the Annex to CSD0301 (Data Transaction Catalogue). This Change Proposal would take the opportunity to show all MVI transactions in the main body of CSD0301 as well as adding the T004.2 transaction.

A.2.d. DRAFT LEGAL TEXT Required under Market Code Parts 8.7.1 (ii) (d) and 8.8.1 (ii) (d)
CSD0301 (Data Transaction Catalogue), Section 1 would be amended to include a new section 1.1 incorporating the text in red below. The existing Section 1.1 would be renumbered accordingly. 1.2 MVI Transactions The following transactions are available to Licensed Providers through the MVI: • T003.1 – Registration application • T004.2 – Submit meter YVE details • T005.1 – Submit meter read (LP) • T032.0 – Submit Customer Name The following transaction is available to Scottish Water through the MVI: • T012.7 – Update Live Rateable Value Note that only the addition of the T004.2 transaction would be a change to existing functionality. The remainder of the legal drafting would spell out the transactions available through the MVI in the body of CSD0301 rather than in the Annex. If changes are identified for CSD0301 Data Transaction Catalogue Annex, these will not be provided in this MCCP, but will be provided following the deployment of the associated system updates. This is because the majority of CSD0301 Annex is system generated automatically and can only be updated after associated changes have been incorporated into the relevant system.
